# STRYKER DRILLING

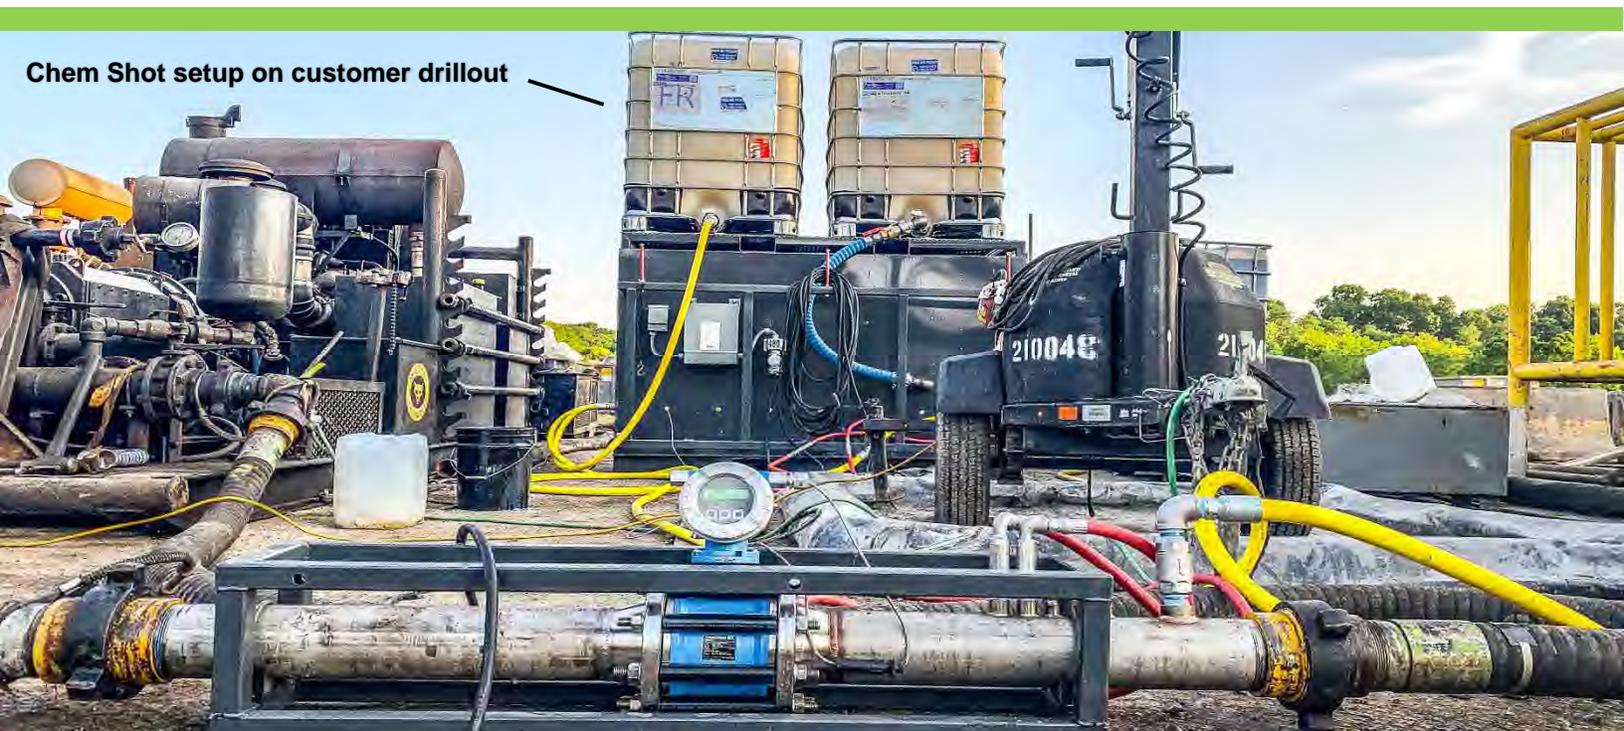

## 100% Electric, Fully Automated, Small Footprint, New Technology

Optimize your drillout operation with electronically controlled and metered chemical injection.

### Chem Shot includes the following features:

- Water flow meter (bbl/min)
- 3 Chemical injection pumps electronically controlled to +/- 0.1 (gal/hr)
- Intelligent touch screen control panel (on unit and remote control panel)
  - Automation requires zero onsite personnel
- Integrated tote racks for a clean, organized, HSE focused operation
- Electric power adaptable to any rig or generator source
  - 480V/208V 3 phase or 240V single phase
- Low impact 40" x 90" footprint
  - <1 hour rig up time
- WITS/Modbus compatible for Pason/BoreSight/Totco

Small Footprint

## Chem Shot Specs

Footprint: 90" x 40"  
Power requirements: 480V/208V 3 phase or 240V single phase
