

StrykGraph Liquid Graphite

StrykGraph is a premium liquid graphite lubricant specifically formulated for today's extended reach drillout completions operations in the oil & gas industry.

StrykGraph applications:

- Coil tubing
- Stick pipe
- Work over rigs
- Wireline and slickline
- Open Hole Drilling

StrykGraph has the following features and benefits:

- Formulated with leading-edge nanotechnology
- Metal to metal and/or metal to formation affinity
- Reduces torque & drag for effective weight transfer
- Increased plug drillout performance (reduces drill time between plugs)
- Reduces friction & prevents pipe wear
- Assists wireline travel to total depth on extend reach wells
