

StrykBeads Liquid Beads

StrykBeads is a premium liquid bead lubricant specifically formulated for today's extended reach drillout completions operations in the oil & gas industry.

StrykBeads applications:

- Extreme Torque & Drag
- Tortuous wellbore
- Coil tubing
- Stick pipe
- Work over rigs

StrykBeads has the following features and benefits:

- Decrease surface area between casing and drill string
- Compatible with any fluid system
- Reduces torque & drag for effective weight transfer
- Increased plug drillout performance (reduces drill time between plugs)
- Reduces friction
