

StrykSlipX Pipe On Pipe

StrykSlipX is a leading pipe on pipe lubricant specifically formulated for today's extended reach drillout completions operations in the oil & gas industry.

StrykSlipX applications:

- Coil tubing
- Stick pipe
- Work over rigs
- Wireline and slickline

StrykSlipX has the following features and benefits:

- Formulated with leading-edge nanotechnology
- Metal to metal and/or metal to formation affinity
- Increases Reynolds Number, improves lift of plug parts/sand/wellbore debris
- Reduces torque & drag for effective weight transfer
- Increased plug drillout performance (reduces drill time between plugs)
- Assists wireline travel to total depth on extend reach wells
