

CHEM SHOT™

Next-Generation Chemical Injection

100% Electric. Fully Automated.
Built for Performance.

Optimize your drillout operations with **precision-controlled**, electronically **metered chemical injection** – eliminating variability and maximizing efficiency.

PRECISION CONTROL

- Water flow monitoring (bbl/min)
- Injection accuracy: **±0.1 gal/hr**
- Real-time electronic metering

FULL AUTOMATION

- Intelligent touchscreen controls (unit + tablet)
- Remote operation capability
- **Zero on-site personnel required**

FLEXIBLE POWER

- Runs on rig or generator
- 480V / 208V (3-phase)
- 240V (single-phase)

EFFICIENCY & FOOTPRINT

- Compact: 40" x 90" footprint
- < 1 hour rig-up

Automated Injection

Compact Footprint

Electric Powered

- WITS / Modbus compatible

Automation removes variability.
Chem Shot delivers results.
